

Juliette Zaccour

📍 Oxford, UK ✉ juliette.zaccour@oii.ox.ac.uk 🌐 <http://juliettezaccour.notion.site>

Summary

PhD Candidate in Social Data Science at the Oxford Internet Institute, conducting research on data sharing and privacy-enhancing technologies' impact on public interest research. Having a background in humanities and data science, my research interests lie at the intersection of technical AI and data governance, and evaluating the dower dynamics and social impact of algorithms.

Education

PhD in Social Data Science

2023 – 2026

Oxford Internet Institute, University of Oxford

- Advised by [Dr. Luc Rocher](#)
- [Synthetic Society Lab](#)

Master in Information

2022 – 2023

Faculty of Information, University of Toronto

- Human-Centered Data Science program
- Graduate student researcher, [HCDS Lab](#)
- *Master's thesis*: Towards a Human-Centered Approach to Data Science in Healthcare: An Exploration of Methods. Supervised by [Dr. Shion Guha](#)
- *Courses*: Programming for data science; Statistics; Data visualization; Experimental design; Data analytics; Machine Learning; Natural Language Processing; Research methods; Information systems, services and design; Systems thinking; Human values in data science
- 3.97 /4.0 GPA

Bachelor of Arts

2017 – 2021

Faculty of Arts, McGill University

- Major concentration in **Liberal Arts**, Minor concentration in **Psychology**, Minor concentration in **East Asian Studies**.
- 3.8 /4.0 GPA
- Academic exchange at Sophia University, Tokyo (2019)

Experience

Research Scientist Intern

Oxford, UK

Aioi R&D Lab

July-October 2025

- **Data privacy project**: (i) Consulted on requirements for privacy and fairness evaluations, (ii) conducted comparative synthetic data evaluations, and (iii) built a prototype application to demonstrate a synthetic data generation and evaluation product to stakeholders.
- **AI Governance project**: (i) reviewed existing governance tools and AI risk taxonomies, (ii) developed a socio-technical taxonomy of AI risks, and (iii) designed a database to structure AI incident reports.

Teaching Assistant

Oxford, UK

Oxford Internet Institute, University of Oxford

January-March 2024

- Teaching Assistant for MSc course [Fairness, Accountability and Transparency in ML](#), co-taught by Dr. Ana Valdivia and Dr. Luc Rocher.
- Led weekly tutorials and assisted students on formative assignments and final project proposals.

Graduate researcher

Toronto, Canada

Human-Centered Data Science lab

January 2022 - June 2023

- Contributed to research projects in social work and healthcare as a data scientist, under the supervision of Dr. Shion Guha and in collaboration with the *University at Buffalo School of Social Work* and *Parkview Health*.
- *Healthcare*: Conducted cluster modelling to uncover subtypes of long COVID based on presentations of symptoms; communicated our findings to clinicians through a written report.
- *Social Work*: Analyzed survey data using exploratory factor analysis and regression modelling to identify underlying characteristics of resilience in adolescents.

Research student

Toronto Human-AI Research School

Toronto, Canada

Summer 2022

- Worked in partnership with non-profit healthcare system *Parkview Health* on the analysis of clinical data from long COVID patients, including data logs from wearables, qualitative surveys, and Electronic Health Records data.
- Presented key insights and data visualizations to healthcare researchers.
- Co-authored a research article presented at CHI 2024 exploring the lived experiences of patients recovering from long COVID.

Research & Content Manager

ACT Responsible

Paris, France

Sept 2021 - July 2022

- Led a data analysis project exploring the evolution of responsible advertising over the past 20 years.
- Diffused key research findings to industry actors through an exhibition at the 2022 Cannes Lions International Festival of Creativity, visited by thousands of communication professionals, as well as through press releases and a report.
- Consulted on survey design to assess corporate responsibility practices in international advertising agencies, and on the data analysis and communications of results to stakeholders.
- Co-trained two interns on event organization, data entry and community management.

Digital Event Coordinator (Intern)

ACT Responsible

Paris, France

January-July 2021

- Conducted data entry and content curation for the organization's media database.
- Responsible for social media content creation and communications, including newsletters and press releases.
- Participated in organizing a digital industry event, in collaboration with art directors, web developers, and coordinating with international advertising agencies.

Research Assistant

.TXTLAB, McGill University

Montreal, Canada

January-November 2018

- Conducted data collection, entry and cleaning for cultural analytics research projects.

Other activities

- Reviewer for
 - International Association for Safe & Ethical AI (IASEAI) Conference (2025)
 - ACM Conference on Fairness, Accountability, and Transparency (FAccT) (2025)
 - Big Data & Society (2024)
- Women's Welfare Officer at St Catherine's College [MCR](#) (2023-2025)
- Machine Learning for Social Good researcher at the [Future Impact Group](#) (2023-2024)
- Photographer (2017-2018)

Academic awards

St. Catherine's Graduate Scholar

Scholarship awarded by Oxford's St Catherine's college (1 awarded per year)

2025-2026

Oxford Women in Computer Science Society Scholarship <i>Scholarship awarded by OxWoCS for conference attendance</i>	2025
Light Senior Scholarship <i>Scholarship awarded by St Catherine's College</i>	2024
Clarendon Scholar <i>Full scholarship for a DPhil at the Oxford Internet Institute</i>	University of Oxford, 2023-2026
Dean's Honor List <i>Top 10% of the Faculty</i>	McGill University, 2019
Golden Key International Honor Society member <i>Membership offered to the top 15% students of the Faculty</i>	McGill University, 2019

Publications

Contextualizing research integrity loss under synthetic data access

Under Review

Access Denied: Meaningful Data Access for Third-Party Algorithm Audits

In *Proceedings of the CHI Conference on Human Factors in Computing Systems (CHI'25)*

Juliette Zaccour, Reuben Binns, Luc Rocher. doi.org/10.1145/3706598.3713963 

Received an **Honorable Mention Award** (top 5%)

Charting the COVID Long Haul Experience: A Longitudinal Exploration of Symptoms, Activity, and Clinical Adherence

In *Proceedings of the CHI Conference on Human Factors in Computing Systems (CHI'24)*

Jessica Pater, Shaan Chopra, Jeanne Carroll, Juliette Zaccour, Fayika Farhat Nova, Tammy Toscos, Shion Guha, and Fen Lei Chang. doi.org/10.1145/3613904.3642827 

Hackathons & ML competitions

ML Forecasting Competition — Innovation Award & Performance Award

November 2023

Canadian Statistical Sciences Institute

- Developed a classification model to predict winners in horse races, using feature engineering to introduce performance scores based on historical data, horse characteristics and race track condition.
- Achieved the highest accuracy.

Crop Yield Estimate Challenge — 3rd place

December 2023

Digital Green & Zindi

- Developed an ensemble ML model predicting rice yield among smallholder farmers in Bihar, India.
- Achieved 3rd place on model accuracy.
- Presented insights from our model using Shapley values to inform precision agriculture interventions.
- Collaborated with Digital Green following the competition, to test the model with new data and deployed it in a web application.

Data Science Hackathon — 1st place

March 2023

Government of Canada & University of Toronto

- Developed an explainable algorithm detecting errors and fraud for a governmental family benefits program.
- Achieved the highest accuracy in error and fraud detection.
- Presented our solution to the jury with a demo of the decision-support system, along with an assessment of cost-savings.

Technical skills

Python for data science (data analysis, statistical analysis, Machine Learning, data visualization)

Research software development (Experiments, Git, ...)

SQL & Database modelling (Entity-Relationship Diagrams, relational databases with MySQL, basic querying with SQL)

Figma, Adobe Lightroom, Photoshop, Premiere Pro (web design, photo and video editing)

Languages

English, French (native), Spanish (intermediate), Japanese (beginner)
